TOTAL SALES OF BONDS BE- TWEEN BOARDS	Thursday	Wednesday
\$7,000	\$5,000	\$5,000

Yesterday was the biggest day in the Honolulu Stock Exchange in years, being rivaled in interest only by the trading at the beginning of the European war. While the volume of trading yesterday was not as large as on the day after the news of the first declaration of war, the advances in prices were greater. In the words of a broker, the market soared.

Announcement of the intention of the administration at Washington to recommend retention of the duty on sugar was the cause. Sugar stocks almost altogether made up the trading. Stocks advanced.

An idea of the day's trading may be obtained from the following, which includes stocks that made the biggest advances and which changed hands in greatest volume:

Onuma advanced from 32 to 38. Olan advanced from 4 1/2 to 7 1/2. Waiwai advanced from 19 1/2 to 24 1/2. Olan advanced from 25 to 27. Pioneer advanced from 25 to 28 1/2. Commercial advanced from 35 1/2 to 39 1/2. Kwa advanced from 20 to 25. The advance of Onuma was the most decided of any, and dealings in Olan, which amounted to 1200 shares, were the largest of any one stock. The volume of trading in Olan is said not to be phenomenal in face of the official treasury statement, but rather to be ascribed to the low price of the stock, which was conducive to buying.

Dividend paying shares led the market. This is said to be due to the fact that the retention of the duty on sugar would release large amounts of surplus earnings for dividends. The surplus earnings have been held back with a view to tidying over the plantations in the event of free sugar.

Brokers declared the rise yesterday forecast a boom in the market. Acceptance by congress of President Wilson's altered views regarding the tariff is the only thing that stands in the way, they said. It is not believed the market will see a further advance until congress has acted upon the recommendations.

Yesterday's trading came as a grateful relief to the brokers. Following a market which has been stagnant for months, the advance lifted a cloud of depression which had settled down on the business and was becoming worse with the approach of the day for enforcement of the free sugar clause of the Democratic tariff.

## EXCEPTION TAKEN TO ACHI'S FIGURES

Figures do not always tell the truth, according to Louis Rosa of the city treasurer's office, who takes vigorous exception to the figures quoted by W. C. Achi in attempting to prove a waste of money in the treasurer's office.

Achi declares that the treasurer's yearly expenses in 1906 were \$3,840.00 and for the first six months of 1915 \$4,125. Achi blames all this on the present charter and is inclined to label the increase unnecessary expense.

"I wish Achi would come down to our office," stated Mr. Rosa yesterday, "and together with his comparative figures, get up a table comparing the work we do. He will see that since 1906 the work here has doubled while the expense has increased only one and a quarter times. Thus, in reality, Achi and the taxpayers are getting more work for less money than they did before."

GERMANS HARD PUT

LONDON, October 8.—An Exchange Telegraph dispatch from Amsterdam announces that the German authorities have confiscated all chandeliers, lighting fixtures and works of art containing supply of the metal having

# 'SHORT BALLOT OR NOTHING'—S.B. DOLE

Former President Outlines His  
Views On Charter Advance-  
ment—Need For Education

The Civic Federation, Chamber of Commerce and other unofficial bodies are commencing to line up with the Municipal Research Club in a demand upon the charter convention for something decidedly more advanced in the way of a new charter for Honolulu than the one decided upon by the majority of the committee of five and endorsed by the majority of the committee of fifteen, which will be presented to the convention on Tuesday evening. Although these organizations do not agree amongst themselves on any exact lines, they do agree on the necessity of elections at large and the elimination of offices that consist of nothing but politics and salary.

It is understood that a strong fight will be made by the minority in the convention for a straight commission to replace the board of supervisors, with the commissioners elected each to head a specific department and to appoint and be responsible for the executive head of the department.

City Manager Plan  
The Civic Federation desires a city manager, appointed by an elected board, as does the Municipal Research Club, but there are many who do not feel that such a radical accomplishment could be carried out. Judge Sanford B. Dole is one of these. His suggestion is that the city manager should be elected, with a recall held over him. The judge is an advocate of the short ballot and believes it best not to alter the existing law until the change brings with it this reform. In a letter to Chairman Lorin Andrews at the charter convention, Judge Dole sets forth his views, as follows:

Follow a High Ideal  
"Mr. Lorin Andrews, Honolulu, T. H. "Dear Sir:—Upon thinking over the question of the 'short ballot,' I am more convinced than ever that its adoption here as to executive officials is vital to any improvement in the government of Oahu. You are familiar with the arguments pro and con and also, I believe, convinced as I am, but have grave doubts whether it can be carried through in legislation. I have my doubts also as to that, but I believe it is worth the effort. I should press for its adoption, and not be discouraged by any failure to carry it, but should persevere and keep up a campaign of education on the subject.

Cannot Fail to Impress  
"The example of the adoption of the principle of the 'short ballot' by municipalities and States on the mainland cannot fail to impress the voters of Oahu. When they remember that the election of executive officials of the government of the United States is under such a system and that the great State of New York, the State which has long been considered as the one whose vote is likely to be decisive of presidential elections, has just suggested the 'short ballot' for its own government, they will have something worth while to think about on the subject—those who think at all on political questions.

Perpetuating Vicious Policy  
"If, however, we give up the scheme and fall back on the long ballot and try to make that do, we are only fastening a vicious policy all the more firmly upon our political system. The unthinking voter would be fortified in his view that the longer the ballot the greater his political power. Rather than attempt to revise our present City and County Act in this direction, we had better leave it where it is.

Research Ideal Hopeless  
"I am inclined to doubt whether the proposition of the Research Club's tentative draft of a charter providing for a city manager appointed by the city supervisors would carry here, even by long and persistent effort. Is not the scheme of a city manager elected at the polls and subject to recall enough to work for, and most likely to be accepted eventually by the voters? It has the honor precedent of the United States government and the recent action of the State of New York to recommend it, beside I do not know how many of the newly revised municipal governments of the mainland.

Elected Manager  
"I would suggest for Oahu some thing like the following for consideration: Nine elected supervisors, three classes, each class of three to serve for four years, without pay. An elected city manager to serve for four years subject to recall. "The powers of the supervisors to be legislative only, including the appropriation of city moneys, excepting that upon the death, resignation or disability of the manager, they shall appoint a temporary manager to administer the executive power until the next election; the manager's appointment and dismissal of the heads of the city departments shall be subject to their confirmation, and they shall appoint the auditor.

All Necessary Power  
"The powers of the manager to include all obviously necessary executive powers for the administration of the city government, subject to the confirmation by the supervisors of his appointments and dismissals of the heads of the executive departments, which shall be the treasurer, the superintendent of public works, the district attorney, and the sheriff, and, perhaps a health officer. The appointments and dismissals by the heads of departments of their foremen or heads of bureaus within their respective departments shall be subject to the confirmation of the manager.

"Bureaus under the superintendent of public works: buildings, roads and bridges, waterworks. "Bureaus under the sheriff: Oahu jail and district lockups. "Hang on to the 'short ballot.'"

# Western Line Blazes Again

(Concluded from Page One)  
front heralds a possible second great drive by the Allies, similar to that begun a number of days ago.

Six massed infantry attacks were made by the French on the German first line at Souain, but broke down under heavy fire. West of the Soummeppy and Souain sections two French divisions succeeded in penetrating the forward line of trenches. They were driven out with counter attacks.

Only near Tureau was the French force successful in capturing eight hundred meters of trenches, when counter attacks brought them to a standstill. Attempts by the enemy to pierce the German line in the neighborhood of Beausjour farm failed.

On the eastern front, at Divinsk, the Germans have penetrated the enemy positions to the three-mile line. At other points the Russian offensive has failed.

YAQUIS BEAT  
CHILDREN DOWN  
WITH WAR CLUBS  
(Associated Press by Federal Wireless.)  
DOUGLAS, Arizona, October 8.—Sixty-three inhabitants of La Colorado, a town in Sonora, Mexico, were massacred recently by Yaqui Indians, according to mail advices received here last night by courier.

The bandits swooped down upon the town without warning, it is reported, but most of the men escaped by flight. Women attempted to flee but the majority of them were cut down as they ran.

Children mutely watched the rush of the Yaquis into the town and did not attempt to flee. They were beaten to death with clubs, it is said. The massacre recalls a recent depredation of the bandits at Torres, another town in Sonora, where eighty persons were locked in a box car and the car fired. Sixty persons were reported to have perished in the flames.

Fifty persons were killed and sixty were injured in a wreck Tuesday on the railroad between Vera Cruz and Mexico City, according to a dispatch received here last night. The scene was near Maltrate. Carrazistas are said to have caused the wreck by bandits.

## SHELLED ITALIANS INTO A CHARGE

(Associated Press by Federal Wireless.)  
ROME, October 8.—In one of the severe engagements on the Isonzo front yesterday, the Austrians maneuvered into position to bombard the Italian lines along the left wing of the Monte San Michela's zone. The fire became so salting that the Italians could not hold the trenches, but instead of retiring they charged upon the gunners. The action was so unexpected that the Austrians were taken completely by surprise and routed, leaving thirty-six guns and a number of prisoners in Italian hands.

## SOLDIER DROPS DEAD IN A BARBER SHOP

A soldier, said to belong to Company F of the Second Infantry, Fort Shafter, dropped dead in a Japanese barber shop on Hotel street, near Nuuanu last evening. His name could not be learned.

The soldier had entered the shop with a companion to get shaved. Upon arising from the chair he complained of feeling ill. A second later he pitched forward on his face. Persons in the shop rushed to pick him up, but they found a lifeless body.

The body was taken to Fort Shafter. Lusitania was formerly the name of the ship.

NAVAL ADVISERS ASK  
\$5,000,000 LABORATORY

(Associated Press by Federal Wireless.)  
WASHINGTON, October 8.—A research and experimental laboratory costing \$5,000,000 was recommended by the Naval Advisory Board, of which Thomas A. Edison is chairman, at the board's first meeting here yesterday. The recommendation was made in the form of a resolution.

It was learned after the meeting that Secretary of the Navy Daniels probably would include a request for the appropriation in his recommendations to congress.

The proposed laboratory is where the board would work out, under supervision of the experts of which it is composed, ideas from every source for improvement of the naval arm of national defense.

# ARMY PROGRAM FOR OAHU MAY BE CARRIED OUT

Washington Despatch Says Sec-  
ond Division Will Probably Be  
Demobilized Next Week and  
Reassignment of Troops Follow

RUMOR GIVES OAHU  
THREE FULL REGIMENTS

General Carter Has Advised De-  
lay in Sending More Troops  
Here Until Permanent Quar-  
ters For All Are Prepared

A special cabled despatch to The Advertiser from Washington yesterday announced that Major General Bell had recommended the issuance of a war department order on October 16 demobilizing the Second Division, which has been on duty on the Mexican border. No order has as yet been issued, but it is probable that the general's recommendation will be followed.

In the opinion of some of the army men of the mainland, which opinion is shared here very widely, the demobilization of the Second Division will mean the immediate increase of the Oahu garrison by the addition of three full regiments of infantry.

It was planned by the war department, several months ago, to send additional infantry to Hawaii, but the trouble along the Rio Grande diverted the troops there. The apparent quieting down of the situation, with Carranza growing daily in strength and the bandit Villa losing regularly has made it possible again for the war department to renew its Oahu program.

Major General Carter, in command of the Hawaiian Department, has urged that the war department delay sending additional regiments here until some better arrangement for housing them than is in prospect be made, and it is possible that the coming of the additional troops will be preceded by an extensive building campaign at Fort Shafter, which is, by the coming of the troops, to be converted into a brigade post.

On the other hand, it is known from information from war department sources that the department has the greatest faith in the climate of Hawaii and is inclined to think that troops under canvas here are better off than most troops in barracks on the mainland. The fact that the department has housed the majority of the troops here in the most temporary kind of shelters indicates that the lack of regular barracks will not be considered sufficient of a drawback to prevent the sending of the regiments here according to original and delayed program.

Regiments to Be Affected  
There are now seven infantry regiments with the Second Division, the Twenty-third being en route to Manila on the transport Thomas, somewhere off the Atlantic end of the blocked Panama Canal. The Fourth is at Brownsville, the Seventh and Twenty-eighth are at Calcutta, the Nineteenth is at Harlingen and the Eleventh, Eighteenth and Twenty-second are at Douglas, Arizona. This latter regiment has already been assigned for station in New York State.

The regiments which inside army rumor is sending to Hawaii are the Sixth, now at El Paso; the Seventeenth, now at Texas City; and the Twentieth, now at Bliss, all of the Southern Department.

## KNOWLEDGE FORCED UPON DETECTIVES

Through the arrest, for theft, of Anna Parker and several other women, the detective department yesterday learned what the rest of the community has known for a long time, that a fairly well organized system of commercialized vice is in full operation in and out of the so-called restricted district.

The complaint against the Parker woman was made by a Chinaman who claims he was robbed of his watch by her. A "confession" was secured which implicated Martha Lokana, Emma Myers, Cecelia Kearns, Jack J. Maral and L. Gonzalla, with whom the police made their first acquaintance thereby. All are charged with being in a trade which is routine knowledge to other police forces.

It is asserted that the two men have been forcing women to support them at the trade which is as old as the world; and this not filling their coffers with sufficient rapidly, robbery is said to have been indulged in as a side line.

## CITY PLANNING BOARD COMPLETED BY MAYOR

Mayor Lane yesterday completed his organization of the city planning commission and will announce the person Monday night at the meeting of the board of supervisors.

The mayor said yesterday the fifth and last member of the commission had been obtained. The mayor had asked his choice if he would serve and received a favorable answer, he said. "He's a good man, too," the mayor declared.

## DE RUSSY NON-COM. SHOOT HIMSELF

Sergeant George Liley Attempts  
Suicide and May Die  
From Wound

Sergeant George Liley of the 104th Coast Artillery Corps at Fort De Russy attempted suicide last night and may die. The reason for his act has not been learned.

Capt. Francis M. Hinkle, commanding the 104th corps, authorized the statement that the sergeant shot himself and was dangerously, and probably fatally wounded.

Sergeant Liley was taken to the department hospital at Fort Shafter in a police patrol, where he was operated upon at once.

The sergeant shot himself about midnight and the lateness of the hour hampered efforts of the company commander to obtain immediate aid, but as quickly as possible the police patrol was rushed to the fort to take the sergeant to Fort Shafter.

The attempted suicide of Sergeant Liley is the second case of its kind in the army here in thirty-six hours. Second Lieut. Carl E. Fosnes shot and killed himself at Schofield Barracks Wednesday morning.

## BRITISHER ATTACKED IN SOUTH ATLANTIC

(Associated Press by Federal Wireless.)  
RIO DE JANEIRO, October 7.—The possibility that a vessel hostile to Great Britain is still roaming the seas was given color today by the report of the British freighter San Melito, on arrival today from Tuxpan, Mexico. The freighter reported that an unknown vessel in the night attacked her and sent eight projectiles against her sides, which exploded and killed one and wounded six of the crew.

## CASUALTY LISTS MANY OF WHEAT ESTIMATED

(Associated Press by Federal Wireless.)  
WASHINGTON, October 7.—The country's wheat crop is placed at 1,000,000,000 bushels in estimates just made public by the department of agriculture. This beats the best previous record, that of 1912, by 111,000,000 bushels.

# Honolulu Stock Exchange Thursday, October 7, 1915.
